

Placement Presentation

Presented by
Leo Lau
2005-10-29

Agenda

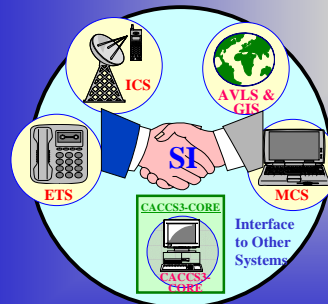

- My placement company and team
- Our project
- My contribution
- Challenges to overcome
- My achievement and feeling

My placement company and team

- Hong Kong Police Force
 - Information Technology Branch
- Our project: The Third Generation of Command and Control Communications System (CCIII)
- My team is responsible for infrastructure and project management
- 2 placement students in my team
- My supervisor:
 - Mr. Peter TH Chan (System Manager)

Our project: CCIII System

MCS: Mobile Communication System
ETS: 999 Emergency Telephone System
ICS: Integrated Communications System
AVLS & GIS: Automatic Vehicle Location System & Geographic Information System

My contribution

- Conduct CC3 infrastructure testing.
- Deployment of 400+ fixed and mobile workstations.
- WLAN implementation in 18 police stations.
- Project co-ordination of CC3.
- System Monitoring
- Writing user manuals
- Various ad-hoc tasks.

Challenges to overcome

- Catch up the project and task by myself
- Learn all the technique skill in a short time
- A difference working style
- Communication skills
 - Co-operate with different parties to perform the testes, to solve the technical problems

My achievement

- Greatly enhanced the self-learning ability
- Deeper understanding of the network-related technology, having the valuable hands-on experience
- Working culture in different companies
- Building networks with skillful engineers and senior staffs

My feelings

- Peoples are very professional and very hardworking
- Many valuable experience
- Job is funny, enjoy the work
- Every minutes is the deadline

Thank You~

Q & A
